Acevedo's appointment comes at a time of transformational change for the organization. For over 30 years, SAEP has been a leader in the field of college access and enrollment in San Antonio. Acevedo states, "Increasing college attainment rates across the community allows individuals a path to upward economic mobility while also helping to create a better educated workforce needed for economic growth. I am honored to have the opportunity to lead SAEP and build on the momentum that has been created to expand college access and support college enrollment and completion for the residents of San Antonio."
